

A woman with long dark hair, wearing a patterned blouse, and a bald man with a beard wearing a black scrub top and a stethoscope, are sitting at a desk. They are both looking at a laptop screen and smiling. The background is a blurred office or clinical setting with glass partitions.

# Access MGMA DataDive

1. Visit [mgma.com](https://mgma.com)
2. Sign in with your existing MGMA account credentials by clicking **“Sign In”** in the navigation bar.
3. Access DataDive in one of two ways:
  - a. After signing in, click on the **“Data”** tab in the navigation bar and select **“Access Data”** under the Analysis Tools menu header, or
  - b. Type **“datadive.mgma.com”** in the URL search bar (bookmarking this page is recommended).
4. As we update license agreements, you may be asked to accept the agreement.
5. Select the data year under a data set, and **“Access.”** You can also launch your recent session or open a saved report.

**System Requirements:** All you need is internet access and an up-to-date supported browser. MGMA DataDive is easily accessible with nothing to download.

Laptop

Tablet

# Navigation

## A visual guide

- 1. Data Set and Year:** This is where you can select between the data sets and data years you have access to.
- 2. My Data:** View your participant data and add providers for comparison in DataDive Tools.
- 3. Saved Reports:** View your saved tables across all data sets.
- 4. Top Right Menu:** Access your user information, DataDive resources, support contact information, links to the DataDive landing page and MGMA homepage, and log out functionality.
- 5. Specialty/Position:** Select one or more specialties/positions to view. *\*You can navigate back to the left panel by selecting the top navigation labels.*
- 6. Benchmark:** Choose one or more benchmarks to view.
- 7. Compare Data By:** Choose a filter to compare data across a category.
- 8. Filters:** Choose a filter category and one option to limit the sample.
- 9. Percentiles and Measures:** Select one or more options.
- 10. Clear All:** Remove all table selections to build a data table from scratch.
- 11. Search:** Type in the data, specialty or position you wish to narrow down in the data table.

The screenshot shows the DataDive Academic Compensation 2025 interface. The top navigation bar includes 'My Data' and 'Saved Reports'. The main interface is divided into several sections: 'Specialties' (5), 'Benchmarks' (6), 'Compare By' (7), 'Filter (Link By)' (8), 'Percentiles and Measures' (9), and a 'Clear All' button (10). The 'Percentiles and Measures' section on the left includes a 'Measures' list (12) and a search bar (11). The main data table (14) has columns for 'Benchmark', 'Specialty', 'Group Count', 'Body Count', 'Mean', 'Standard Dev', and various percentiles (100%, 250%, 500%, 750%, 90%). A 'Report Summary' button (13) is located below the table. At the bottom right, there are 'Save' (15) and 'Export (248 Rows) As' (16) buttons.

- 12. Custom Percentile Selections:** Type in any percentiles between 10 and 90 in the lower window, separating whole numbers with a comma or a range separated with a dash.
- 13. Checkboxes and Only Show Selected Items:** Check the data you would like to narrow down and turn on the toggle to filter to your selections.

- 14. Data Table:** As selections are made in the left navigation, they are applied to the table results.
- 15. Save Report:** Save your data table selections with a custom report title.
- 16. Export:** Select Excel, CSV or PDF export for the data table.

# Organizational Membership

## DATA BENEFITS

In addition to the DataDive benefits highlighted, organizational members receive exclusive access to many other helpful features to guide their data journey.

- **Access to all current MGMA data sets** live in DataDive plus retained access to MGMA data sets for the duration of the organizational membership.
- **Access to a data strategist** for assistance interpreting and applying the data to your organization.
  - Let us be a partner and help troubleshoot financial and operational challenges using data as a baseline for solutions.
- **Receive and share advice** on maximizing the data sets and exchange methods for effectively applying benchmarks in practice through the [DataDive User Network](#).
  - Data experts are available to facilitate discussions and answer questions.

*View all organizational member benefits [here](#).*

- **Access to member-exclusive data tools.**
  - **Evaluation and Management Profile Tool:** Create useful reports that compare your provider and practice E/M coding experience with claims data found in the most recent Medicare Utilization Dataset.
  - **RVU Calculation Tool:** Calculate your providers' and/or practices' relative value units (RVUs) with the ability to view:
    - RVUs broken out by component
    - Graph/breakout by category, practice or physician
    - Detailed list of RVUs by CPT code
    - Comparison of CMS fee schedules across current and previous years
    - Physician comparison by CPT code
    - Customization by facility/non-facility and locality/geographic practice cost index (GPCI)
  - **Physician Fee Schedule Tool:** Optimize your third-party payer contract negotiations.
    - Customize CMS physician fee schedules by locality and Non-Medicare payment rate
    - Select top procedure codes by specialty, informed by MGMA data
    - Compare fee schedule versions across years
    - Adjustable conversion factor and facility/non-facility filters
    - Easily save, export, and access custom tables via web interface

# Support

If you run into any problems or have any questions, please check out the resources listed below.

## MGMA DATADIVE RESOURCES

Access helpful videos, definitions, and summary trends through the top right menu inside DataDive, which will link you to [mgma.com/datadiveresources](https://mgma.com/datadiveresources)

## CONTACT

We are here to make sure you get the most out of your investment. Your account manager is available to help answer your questions and accept feedback.

If you have questions about the MGMA benchmarks, please contact the MGMA Data Solutions department.
