ACMPE CONTINUING EDUCATION EVENT REVIEW FORM

The ACMPE Continuing Education Pre-Approval Event Form must be submitted 30 days prior to the educational event. All events must have a submitted Event Review Form for the first six months of your initial offering period. After the preliminary six-month window, the organization may submit their offerings at year end for documentation. After the first six months with consistent and appropriate use of offering ACMPE credit, a review of each program is no longer required. This period may reoccur in a modified manner if the year-end reporting displays discrepancies with the ACMPE continuing education standards. Organization will be notified of any needs if this occurs.

Events are described as any interactive learning programs that include relevant content aimed at improving management competence and medical practice management knowledge.

Please Note: you must receive confirmation of receipt of payment and approval in order to promote or grant ACMPE continuing education to attendees.
